Middle East Wind Solar Energy Storage ICOCA Project

Overview

Is wind energy a business opportunity in the Middle East?

While solar has become a popular avenue for companies in the Middle East due to its solar yield and reliability, wind energy is also becoming an opportunity for business growth. ACWA Power and Envision Energy are developing a 1.1 GW wind farm in Egypt's Suez Gulf region, which has the highest wind potential in the country.

What is the outlook for wind energy in the MENA region?

The outlook for wind energy in the MENA region is promising, with more than 15 GW in the development phase. A recent development is Masdar signing a Land Access Agreement for a 10 GW project in Egypt, which is a significant step forward in the region's renewable energy journey. Solar PV Wind.

How many solar panels are installed in the MENA region?

MENA Energy Outlook 2025⁹ The current installed solar PV capacity amounts to 22.3 GW in the MENA region (Figure 4). The UAE are leading the way with more than 5 GW installed.

How many green hydrogen projects are there in Oman?

Green hydrogen developments (Table 13) in Oman are being orchestrated by Hydrom, with an initial aim of meeting a production target of 1-1.25 Mtpa of green hydrogen by 2030²⁶. Through two rounds of auctions, Hydrom has awarded eight projects: five in the Duqm area and three in Salalah.
