# **Monaco Mobile Charging Cabinet Power Supply**

## Overview

---

What power supply does Monaco use?

In Monaco, the usual power supply is 230 volts and 50 Hertz, which is common across many European countries. Before you travel, it's crucial to understand the plug types used in this posh principality. This small detail can significantly affect how you charge your devices and stay connected during your visit.

What type of plug does Monaco use?

Monaco uses power outlets and plugs of types C, E & F. Take a look at the pictures below to see what these plugs and power sockets look like: Do the outlets look different in your country?

You'll need a power plug adapter. Type C - The standard European plug. Commonly used in Europe, South-America and Asia, but also in quite a few other countries.

Do I need a travel adapter in Monaco?

If you're not sure whether the outlets and plugs used in your country are the same as in Monaco, you can use the tool at the top of this page to check if you need a travel adapter. All power sockets in Monaco provide a standard voltage of 230V with a standard frequency of 50Hz.

What is the standard power socket voltage in Monaco?

All power sockets in Monaco provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Monaco if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.
