Monaco high power ups uninterruptible power supply

Overview

What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supply (UPS) | Schneider Electric Hong Kong, China. An Uninterruptible Power Supply system provides emergency power when the main source fails, using batteries to ensure a continuous supply. It conditions incoming power, protecting equipment from fluctuations. We offer various UPS power supply types for different needs.

What is an ups & how does it work?

UPS units are emergency power supplies that ensure uninterrupted power delivery. In the event of a power surge or outage, the UPS takes over as the primary power source. This allows, for example, the saving of current projects and the safe closure of documents. A UPS protects hardware components from the negative effects of power surges.
