Overview

What is a solar air conditioner?

Deye's innovative solar air conditioner series represents a breakthrough in sustainable cooling technology, combining eco-friendly operation with powerful performance. Our solar air conditioners are designed to significantly reduce electricity costs while providing reliable cooling even in the most challenging environments.

Are solar-powered central air conditioners a mini split?

Though solar-powered central air conditioners exist, most solar ACs are mini splits. Mini splits differ from central ACs because they don't require ductwork to operate. Traditional central ACs consist of an outdoor compressor that pushes air through evaporator and condenser coils to cool it.

Who is China solar air conditioner manufacturer?
