Overview

Which battery is best for a solar system in Namibia?

This can be done whether you already have a Solar System in Namibia or you intend to have one installed. In most cases, lithium-ion batteries are the best option for a solar panel system, though other battery types can be more affordable.

Does NEC offer solar energy in Namibia?

Solar energy is a free energy source and will never disappear. Therefore, NEC has been promoting solar energy since the early 1970s and offers solar system in Namibia. NEC Energy for solar water heater systems used in domestic and / or commercial applications as well as solar PV systems to generate electricity for various applications.

What are solar grid tied systems & off-grid systems in Namibia?

Learn more about the advantages and applications of the Solar Grid Tied Systems and the Off-Grid Systems in Namibia. The solar energy generated by the solar panels is converted to AC power by the Grid Tied Inverter and fed into the AC Grid. Because of the technical conception of the Grid Tied systems, energy generated is consumed immediately.

What is a wit 35kW inverter?

High Efficiency: With a maximum efficiency of 98.00%, the WIT 35kW inverter ensures that a minimal amount of solar energy is lost during the conversion process, maximizing the energy available for storage or immediate use.
