How do I find charging stations near me?

- Click anywhere on the map to set your location and find nearby charging stations
- Tap station markers to view details and ratings
- Enable location to see stations near you automatically

Got it! Start Exploring Find all electric vehicle charging stations from major networks like Tesla, ChargePoint, EVgo, Francis Energy and more.

How many charging stations are there in Shanghai?

There are 196,000 public charging stations and up to 518,100 households of private charging stations across Shanghai to ensure the daily operation of new energy vehicles, according to the State Grid Shanghai Municipal Electric Power Co.

How does the new EV charging zone work?

Previously, EV drivers often had to search for nearby charging stations. The new zone uses intelligent algorithms to help drivers find the fastest and most economical charging solutions, including suitable times and locations of charging facilities.

Are recharging units certified new energy electricity?

With this batch of facilities, we can say that the electricity powering these recharging units is certified new energy electricity," said Tang Xiaodong, head of the municipal platform for public data collection and monitoring of charging and swapping facilities in Shanghai.
