# **New Energy Shared Battery Replacement Base Station**

## Overview

---

What is NIO Power Swap station 4.0?

The first batch of NIO Power Swap Station 4.0 went live. The fourth generation supports automated battery swap for multiple brands and different vehicle models. NIO, ONVO and all battery swap strategic partners can access the new stations for a comprehensively elevated battery swapping experience that is more convenient than gas refueling.

Which city has the most Nio battery swap stations?

The city with the most Nio battery swap stations is Shanghai, with a total of 190 stations. As of the end of 2024, Shanghai has a population of about 24.8 million and is one of China's megacities. On April 13 this year, Nio announced that it had delivered its 100,000th vehicle in this city.

Which car brand has the most battery swap stations in China?

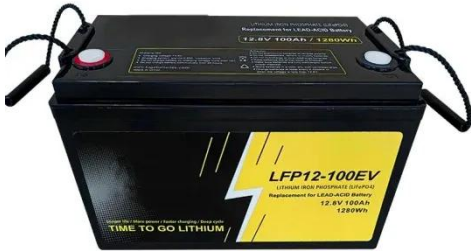

NIO is the car brand that owns and operates the most charging piles and Power Swap Stations in China. By the end of April, NIO had installed 2,454 Power Swap Stations and 22,138 chargers, and connected with over 1.5 million non-NIO chargers worldwide. Its battery swap network runs through 13 trunk expressways and 11 city clusters in China.

What is a battery swapping station (BSS)?

The battery swapping stations (BSS) have been developed to offer users a convenient battery swap service, improving battery efficiency and alleviating charging infrastructure challenges.

## New Energy Shared Battery Replacement Base Station

---

### Beijing to Add Around 40 More New Energy Vehicle Battery ...

With the rapid adoption of new energy vehicles (NEVs), Beijing has been steadily expanding its network of super charging and battery swapping stations in recent years. By the ...

### CATL and Nio plan to build world's largest battery swapping ...

Chinese new energy behemoths CATL and Nio have announced a strategic partnership which promises to deliver the world's largest battery swapping network for EVs.

### NIO Power Swap Station 4.0 Now Operational , NIO

The first batch of NIO Power Swap Station 4.0 went live. The fourth generation supports automated battery swap for multiple brands and different vehicle models. NIO, ONVO and all ...

## Shanghai introduces incentives for the construction of battery

...

From 1 April 2025, Shanghai, a metropolis of millions, will subsidise the construction of battery exchange stations in the city. Hefei is also introducing a subsidy for ...
