New Zealand Solar Water Pump

Overview

Where can I buy solar water pumps in New Zealand?

Watertech Plus is committed to providing the widest range of quality equipment and associated hardware to meet your needs. Shop for reliable, durable, and efficient solar water pumps online at Watertech Plus—your trusted source for sustainable water solutions in New Zealand.

What is a solar water pump?

Solar powered pump which running on electricity generated by photovoltaic panels as opposed to grid electricity or fuel run water pumps and air pumps. Our solar water pump systems for a wide variety of applications e.g domestic water supplies, water transfer, irrigation, livestock watering, swimming pools and industrial pumping applications.

How does a solar water pump work in New Zealand?

The system naturally scales its output with the sun's intensity, pumping the most water on the sunniest days—often when it's needed most. Ultimately, the move towards solar water pumps in New Zealand is more than just a trend; it's a logical evolution in modern land management.

Can a Lorentz solar pump help a New Zealand farm?

Remote water sources will never again be a problem for New Zealand farms. With a Lorentz solar pump, you can draw water from anywhere and any source, or work with an irrigation system you already have and operate. With efficient water supply and management in place, good land is used to its full capacity.
