

BLINK SOLAR

New Zealand energy storage module equipment sales

Overview

What is a scalable solar energy storage system?

With scalable solar energy storage systems that cut costs, boost resilience, and gives farms and businesses full control over your energy use. Ernest Energy provides turnkey solar and battery energy storage systems (BESS) tailored for New Zealand's commercial and agricultural sectors.

What is Sungrow energy storage?

Sungrow have developed an innovative energy storage solution for residential applications. This battery system can be used to store excess solar generated for use at night, provide backup power for when the grid goes down or for full time off grid applications.

How many energy streams can EnergyNest thermal battery systems deliver?

EnergyNest Thermal Battery systems can deliver 4 combined or independent energy streams with >90% round trip energy efficiency.

Who installs smart systems in Southland & Otago?

In Southland and Otago, our official installation partner is NES—a leader in electrical and energy solutions across the lower South Island. With NES handling the install, you can expect smart systems delivered with local knowledge, reliability, and unmatched service.
