New Zealand solar glass greenhouse customization

Overview

Why should you buy a glasshouse in New Zealand?

These glasshouses are perfect for the home produce grower, offering year-round protection with many options and accessories to suit your needs. Glasshouses NZ (by Longbush Cottage) is the exclusive New Zealand distributor of LAMS glasshouses, renowned for their French craftsmanship and timeless design.

Who is glasshouses NZ?

Glasshouses NZ (by Longbush Cottage) is the exclusive New Zealand distributor of LAMS glasshouses, renowned for their French craftsmanship and timeless design. Offering a wide range of custom-built glasshouses, we bring elegance and functionality to your outdoor spaces.

What is a glasshouse for Pacific gardens?

Nestled in between the hills of Manukau, our custom architectural Glasshouse for Pacific Gardens is built to function as a modern sales suite aimed at showcasing the potential of the surrounding new housing development. It's aesthetic nature blends in with the contemporary architectural elements of the community it represents.

What is the difference between a glasshouse and a greenhouse?

Often considered a luxury option, glasshouses provide a clearer, more elegant look and are ideal for creating a visually stunning garden feature. Greenhouses, on the other hand, often use polycarbonate or plastic materials, making them a cost-effective, lightweight choice for gardeners focusing on functionality over design.
