New energy storage equipment in Niue

Overview

How did New Zealand support Niue's battery energy storage system?

In addition to Australia's support, the New Zealand Government contributed \$2.5 million to relocate and restore Niue's Battery Energy Storage System (BESS). This funding has allowed the Ministry to repair the grid control system, procure necessary fuel tanks, and install cabling and connections.

Will Niue generate 80% of its electricity by December 2025?

This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025. This afternoon marked the groundbreaking ceremony for the Niue Renewable Energy Project Phase 2. This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025.

When will the Niue energy project be completed?

The project will be completed mid-2026 when the Government of Niue under the Department of Utilities and Niue Power Corporation (NPC) will take over the ownership. We anticipate savings of 816,000 litres of fuel and 2,202 tCO₂e in year one. It will support Niue to deliver on our climate goals and Nationally Determined Contributions (NDCs).

When is Niue's New Power Station launching?

The Ministry of Infrastructure celebrated the so5 launch of Niue's New Power Station on the 7th November 2024. The launch marks a critical milestone in Niue's journey to strengthen and modernize its energy infrastructure.
