New solar container outdoor power in Gothenburg Sweden

Overview

Is solar energy a good investment for Sweden?

“Sweden is a young market for solar energy with large potential. The country has ambitious sustainability goals, and solar energy can play an important role in achieving them,” says Tomas Lundkvist, country manager for Sweden at Novar.

Which countries have a big demand for solar energy?

The Dutch company has set up in Gothenburg, where there is big demand for green energy. The company is a market leader in the Netherlands, with large-scale projects for solar energy, energy storage and smart grids. It is currently expanding its presence in Europe, not least in Sweden. “Sweden is a young market for solar energy with large potential.

Is Gothenburg a good place to invest in renewables?

“Gothenburg is one of the fastest growing regions in Sweden when it comes to renewables and there is a lot of competent people and companies in the region that we can connect with,” says Tomas Lundkvist. The focus in Sweden initially is on building solar parks in sizes from 20 hectares and up.

How much electricity is needed in Gothenburg & West Sweden?

In Gothenburg and West Sweden, the need for electricity is expected to rise from 18TWh in 2022 to 57 TWh in 2045, shows a report from Region Västra Götaland, the county administrative board and the state-owned authority Svenska Kraftnät.
