# **Ngerulmud Air Compression Energy Storage Power Station**

## Overview

---

What is a compressed air energy storage project?

A compressed air energy storage (CAES) project in Hubei, China, has come online, with 300MW/1,500MWh of capacity. The 5-hour duration project, called Hubei Yingchang, was built in two years with a total investment of CNY1.95 billion (US\$270 million) and uses abandoned salt mines in the Yingcheng area of Hubei, China's sixth-most populous province.

How much energy does nengchu-1 generate a day?

It can store energy for eight hours and release energy for five hours every day, and generate about 500 GWh of electricity annually. According to the project operator China Energy Engineering Corp (CEEC), Nengchu-1 has set three world records in terms of the single unit power, energy storage capacity and conversion efficiency.

What is energy storage No 1?

The "Energy Storage No. 1" project utilizes the caverns of an abandoned salt mine, reaching up to 600 meters of depth, as its gas storage facility. This allows for a gas storage volume of nearly 700,000 cubic meters, translating into a single unit power output of up to 300 MW and a storage capacity of 1,500 MWh.

## Ngerulmud Air Compression Energy Storage Power Station

---

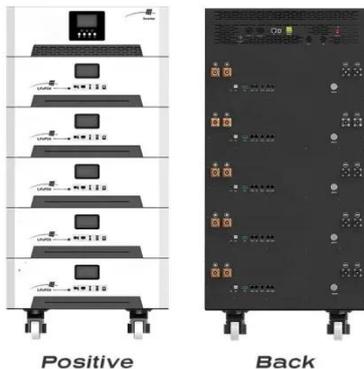

### ngerulmud air compression energy storage power station ...

The details of ngerulmud air compression energy storage power station in 2025 like Impact Factor, Indexing, Ranking, acceptance rate, publication fee, publication time

## CEEC-built World's First 300 MW Compressed ...

CEEC-built World's First 300 MW Compressed Air Energy Storage Plant Connected to Grid at Full Capacity A photo of the pressure ...

## World's Largest Compressed Air Energy Storage Plant

A Record-Breaking Innovation in Energy Storage With a capacity of 1,500 MWh and a power output of 300 MW, the Nengchu-1 Compressed Air Energy Storage (CAES) plant ...

## World's largest compressed air energy storage goes online ...

The compressed air energy storage project (CAES) project in Hubei, China. Image: China Energy Construction Digital Group and State Grid Hubei Integrated Energy Services. A ...

## World's First 300-MW Compressed Air Energy Storage Station ...

The world's first 300-megawatt compressed air energy storage (CAES) station in Yingcheng, Central China's Hubei province, was successfully connected to grid on April 9.

## World's Largest Compressed Air Energy ...

A Record-Breaking Innovation in Energy Storage With a capacity of 1,500 MWh and a power output of 300 MW, the Nengchu-1 ...

## World's largest compressed air energy storage power station ...

The power station, with a 300MW system, is claimed to be the largest

compressed air energy storage power station in the world, with highest efficiency and lowest unit cost as well.
