

## **BLINK SOLAR**

# **No 9 outdoor power battery**

## Overview

---

Do you offer low-voltage batteries for outdoor power equipment?

At American Battery Solutions, we offer low-voltage batteries for outdoor power equipment in 48v and 24v battery systems\*. These efficient and effective options come in a variety of configurations. What's more, our lithium-ion batteries for outdoor power equipment require no maintenance and provide robust durability, extending the life of your valuable equipment.

What types of batteries are used in portable power stations?

The two main classes of batteries you'll see right now in portable power stations are LiFePO4 and NCM. LiFePO4 batteries utilize lithium, iron, and phosphate, and are considered safer and longer lasting than other batteries.

Do portable power stations make camping better?

A good portable power station makes camping better. These devices power lights, phones, and small appliances when you're outdoors. We spent three months testing power stations to find the best portable power stations for camping. We tested 30 portable power stations over 12 camping trips.

Are lithium-ion batteries good for outdoor power equipment?

Lithium-ion batteries for outdoor power equipment require no maintenance and provide robust durability, extending the life of your valuable equipment. At American Battery Solutions, we offer batteries designed to meet your specific needs.
