# Nordic 5kw inverter quotation

## Overview

---

How much does a 5kw solar kit cost?

Buy the lowest cost 5kW solar kit priced from \$1.11 to \$2.10 per watt with the latest, most powerful solar panels, module optimizers, or micro-inverters. For home or business, save 26% with a solar tax credit. Click on a solar kit below to review parts list and options for battery storage, EV charging and installation.

Where can I buy a 5 kW solar system?

Featuring daily updates with the lowest prices on solar panels, SunWatts has a big selection of affordable 5 kW PV systems for sale. These 5 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions.

What is a 5 kW solar system?

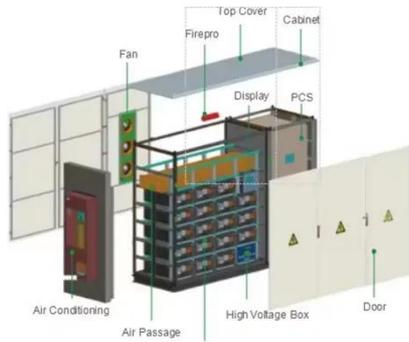

These 5 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.

How much space does a 5kw Solar System need?

A 5kW solar kit requires up to 400 square feet of space. 5kW or 5 kilowatts is 5,000 watts of DC direct current power. This could produce an estimated 650 kilowatt hours (kWh) of alternating current (AC) power per month, assuming at least 5 sun hours per day with the solar array facing South.
