# **Nuku alofa s largest energy storage project goes into operation**

## Overview

---

What is the first large-scale energy storage system in the world?

The first project of its kind in the world Large-scale energy storage systems using sodium-ion batteries are still rare. In May 2024, the first large-scale project of this type in China was launched in the Guangxi-Zhuang region, with a current capacity of 10 MWh.

Where is a 100 MWh energy storage station in China?

(A 100 MWh-scale energy storage station using sodium-ion batteries went into operation on Jin Hubei, central China. Image credit: Hina Battery) China has seen another energy storage project using sodium-ion batteries go into operation, as the new batteries begin to gain wider use in energy storage.

How many kWh can a 100 MWh energy storage station store?

The energy storage station can store 100,000 kWh of electricity on a single charge, which can meet the needs of around 12,000 households for a day. (A 100 MWh-scale energy storage station using sodium-ion batteries went into operation on Jin Hubei, central China. Image credit: Hina Battery).

Where is Datang Group's 100 mw/200 MWh sodium-ion energy storage project located?

The first phase of Datang Group's 100 MW/200 MWh sodium-ion energy storage project in Qianjiang, Hubei Province, was connected to the grid. From pv magazine ESS News site

## Nuku alofa s largest energy storage project goes into operation

---

### World's largest sodium-ion battery energy storage project ...

The first part of the world's largest sodium-ion battery energy storage system (BESS) has been launched in China. State media Yicai Global and technology provider HiNa ...

### World's largest sodium-ion battery goes into ...

The first phase of Datang Group's 100 MW/200 MWh sodium-ion energy storage project in Qianjiang, Hubei Province, was connected ...

Test certification

### World's Largest Sodium-ion Battery Energy Storage Project Goes ...

The power station is China's first 100 MWh-level sodium-ion energy storage project, marking the sodium-ion battery sector's entrance into a new commercialization stage.

## World's largest sodium-ion battery goes into operation

The first phase of Datang Group's 100 MW/200 MWh sodium-ion energy storage project in Qianjiang, Hubei Province, was connected to the grid.

### **World's largest sodium-ion battery goes into operation**

The project represents the first phase of the Datang Hubei Sodium Ion New Energy Storage Power Station, which consists of 42 battery energy storage containers and 21 sets of ...

---

### **'World's largest' sodium-ion battery energy storage project goes into**

The energy storage station can store 100,000 kWh of electricity on a single charge, which can meet the needs of around 12,000 households for a day. (A 100 MWh-scale energy ...

---

### **50MW/100MWh Sodium-ion ESS goes online ...**

In the Hubei province in China, 50MW/100MWh is just the first phase of

the sodium-ion battery energy storage system (BESS) project ...

### World's largest sodium-ion project comes ...

The first phase of the world's largest sodium-ion battery energy storage system (BESS), in China, has come online. The first ...

### 50MW/100MWh Sodium-ion ESS goes online in China with

In the Hubei province in China, 50MW/100MWh is just the first phase of the sodium-ion battery energy storage system (BESS) project spearheaded by Sineng Electric. The ...

LPSB48V400H  
48V or 51.2V

### 'World's largest' sodium-ion battery energy ...

The energy storage station can store 100,000 kWh of electricity on a single

charge, which can meet the needs of around 12,000 ...

---

## World's largest sodium-ion project comes online in China

The first phase of the world's largest sodium-ion battery energy storage system (BESS), in China, has come online. The first 50MW/100MWh portion of the project in ...

---

## World's largest sodium-ion battery goes into operation

The first phase of Datang Group's 100 MW/200 MWh sodium-ion energy storage project in Qianjiang, Hubei Province, was connected to the grid. China's state-owned power generation ...

---

## World's Largest Sodium-ion Battery Energy ...

The power station is China's first 100 MWh-level sodium-ion energy storage

project, marking the sodium-ion battery sector's entrance ...

### **World's largest sodium-ion battery goes into ...**
