Oslo Communications installs 5G base station

Overview

How many 5G mobile devices are connected to Telia's network in Norway?

Today, 1.6 million 5G mobile devices are already connected to Telia's network in Norway, with many customers accessing the internet solely through 5G wireless broadband. 5G's Norwegian numbers tell their own story.

Does Norway have a 5G network?

Telia has delivered a private 5G network to Norway's armed forces in which mobile traffic is separated from the rest of the national network, providing flexible and secure communication.

Can a 5G base station be flown by a drone?

This summer, Telia partnered with rescue services in Norway to test a battery-powered, satellite-connected 5G/4G base station that can be flown by drone, allowing quick restoration of mobile coverage after natural disasters or extreme weather. Ericsson is Telia's technology partner for the Norwegian 5G rollout.

How has 5G impacted Norway?

5G's Norwegian numbers tell their own story. In the Arctic city of Tromsø, to give just one example, the combination of 5G and 4G has boosted average download speeds by 375%, and mobile data usage is up by a remarkable 900% since 2019. Stein-Erik Vellan, Head of Telia Norway: "A national 5G network is only the start of the future."
