# Ottawa Environmentally Friendly Energy Storage Power Supply

## Overview

---

Does Ottawa have a battery energy storage plan?

In 2025, the City of Ottawa established official plan and zoning provisions for battery energy storage uses in accordance with new Official Plan policy. BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, which can then discharge energy in periods of high demand.

Is battery energy storage the best way to meet Ontario's growing electricity demand?

Battery energy storage is the most affordable, lowest-emission path to meeting Ontario's growing electricity demand and delivering a reliable power supply in rural Ottawa, and it can get the job done with a laser focus on safety, concludes a new analysis by Dunsky Energy + Climate released Thursday.

Who owns energy supply in Ontario?

While the Province of Ontario is the regulator and owner of electricity generation supplies, municipalities have siting authority over new proposed renewable energy generation and storage projects, such as BESS. The approved amendments set policy direction for siting BESS within Ottawa's rural and urban areas.

Who approves energy storage systems in Ontario?

The primary authority for the Installation and Approval of Energy Storage Systems connected to the electrical grid in Ontario is the Electrical Safety Authority (ESA). The ESA administers Part VIII of the Electricity Act and oversees the Ontario Electrical Safety Code (OESC).

## Ottawa Environmentally Friendly Energy Storage Power Supply

---

### Battery storage

Battery storage technologies are making the case for replacing fossil fuels with renewable energy. Using renewable energy and battery systems reduces reliance on the grid, ...

### Battery Energy Storage Systems (BESS) Provisions

In 2025, the City of Ottawa established official plan and zoning provisions for battery energy storage uses in accordance with new Official Plan policy.

### Explaining the need for battery energy storage in Ottawa

Professor Schell was interviewed by Stu Mills of CBC Ottawa to explain the need for battery energy storage systems in the Ontario power grid, and particularly in Ottawa. With ...

## Battery Offers Best, Cheapest Path to Energy Resilience for ...

...

Battery energy storage is the most affordable, lowest-emission path to meeting Ontario's growing electricity demand and delivering a reliable power supply in rural Ottawa, ...

---

## Regulations approved for battery energy storage systems in Ottawa

The Agriculture and Rural Affairs Committee in Ottawa approved Official Plan and zoning amendments to establish land-use policy for siting Battery Energy Storage Systems ...

---

## Battery Storage Specialists , LB Electric

Battery energy storage systems store electricity generated from renewable energy sources, such as solar and wind. They work to capture excess power during low-demand ...

---

## Battery Energy Storage Systems (BESS) ...

In 2025, the City of Ottawa established

official plan and zoning provisions for battery energy storage uses in accordance with new Official ...

## Ottawa Outdoor Energy Storage Power Supply: The Future of ...

Why Ottawa Needs Advanced Outdoor Energy Storage Systems Ever wondered how Ottawa's hospitals keep running during ice storms? Or how construction sites maintain productivity ...

## Statement: Ottawa Council Applauded for Advancing ...

Background: The project can store 250 MW of electricity, making it the largest battery energy storage system proposed in the Ottawa area so far. A 250 MW battery can supply ...

## Battery Energy Storage System (BESS) Information

Support for the Battery Energy Storage

System (BESS) Project in West Carleton  
Letter from Chief Greg Sarazin,  
Algonquins of Pikwàkanagàn First Nation  
Strategic Energy ...
