What is a powerpack 450+?

Typical applications and running times can be found here New and Exclusive to PPT we introduce a compact and portable all in one powerpack packed with features. The Powerpack 450+ delivers at every level providing AC and DC power easily and safely.

What is a Li-Po powerpack 450+?

The Li-Po Powerpack 450+ delivers AC and DC power wherever and whenever you need it. Quiet and lightweight innovative portable power that's perfect for off grid outdoor activities, cabins, glamping tents. Read more The Li-Po Powerpack 450+ delivers AC and DC power wherever and whenever you need it.

How much does a 450W panel weigh?

Weighing just 26.8 lbs, this panel is 30% lighter than traditional 450W models. It's easy to carry and transport, whether you're bringing it across the country or just to the backyard. Its durable fiberglass construction and IP68 waterproof rating ensure it can withstand rain, snow, and extreme temperatures.

Can the powerpack 450+ be recharged from solar?

The Powerpack 450+ can also be recharged from solar using the supplied cable and up to a 60 watt solar panel (ideal accessory available here) The integrated LED display clearly displays battery and output status and the control panel allow simple selection of the different output options.
