# **Paramaribo Uninterruptible Power Supply Purchase EK**

## Overview

---

What is an uninterruptible power supply (UPS) system?

Used across a wide range of applications and industries, Uninterruptible Power Supply (UPS) Systems are designed to provide a continuous source of input power despite mains failure, electrical surges and power interruptions.

Who do you partner with for uninterruptible power supplies?

We only partner with suppliers who meet our stringent supply chain standards for quality (ISO 9001), health and safety (ISO 18001), and environmental management (ISO 14001). Browse our full selection of uninterruptible power supplies or contact us today if you have any questions regarding our range. Call 0800 088 5412.

What are high-performance uninterruptible power supplies?

High-performance Uninterruptible Power Supplies - ensure that your equipment will always work regardless of voltage spikes and power failures.

What is a power supply system?

Supplies power without momentary power breaks in the event of a power outage. A system where, normally AC input (utility power) is output as is to connected devices and when a power outage or abnormal voltage is detected, the inverter starts feeding using power from the batteries.
