# **Payment Method for 40kWh Solar Folding Container for Marine Use**

## Overview

---

What is a 20ft & 40ft solar container?

Whether you choose the 20ft or 40ft version, the interior can be configured to house the required number of solar panels, batteries, inverters, and other components, providing flexibility to meet varying energy demands. **On-Board Energy Storage:** To ensure uninterrupted power availability, these containers come with advanced energy storage solutions.

What are mobile solar containers?

Available in both 20ft and 40ft variants, these innovative containers are designed to revolutionize the way we harness and utilize solar power. **Efficient Solar Power Generation:** Our Mobile Solar Containers are equipped with high-efficiency solar panels that capture and convert sunlight into clean, renewable energy.

What is a mobile solar container portable PV power station?

Introducing our cutting-edge solution for sustainable energy production: the Mobile Solar Container Portable PV Power Stations. Available in both 20ft and 40ft variants, these innovative containers are designed to revolutionize the way we harness and utilize solar power.

How many homes can a solarfold Container Supply?

The on-grid version of the solarfold container is connected directly to the public power grid and can supply up to 40 single-family homes with the energy produced (energy requirement of 3,500 kW/year/single-family house). The solarfold on-grid container can also be expanded with various storage solutions.
