Peru New Energy Charging Station

Overview

Petroperú and Enel W Way are committed to the need for new energy sources that are increasingly more efficient and have less environmental impact, which is why they installed their third fast charging electric station, this time in Ica, where modern charging equipment for type CCS2 and ChaDeMo - which delivers up to 60 kW of power - will allow fast charging in less than 50 minutes per vehicle. Where to find EV charging stations in Peru?

If you're an EV driver looking for EV chargers in Peru, you're in the right place. Electromaps database contains 0 charging stations available throughout the country, making it easier for drivers to power their vehicles on the go. Cercado de Lima is the city with more charging stations in Peru. And Ica is the place with less.

Will electric cars be recharged free of charge in Peru?

During the period of promotion of electric mobility, electric vehicles will be recharged free of charge, thus seeking a rapprochement with new energies in the Peruvian market. With the launch of the third electric station, the Lima-Ica route will become the first charging corridor for electric cars nationwide.

Which city in Peru has the most charging stations?

Cercado de Lima is the city with more charging stations in Peru. And Ica is the place with less. The latest charge point added to our database of Peru was: Estación El Ovalo in Ica (15/10/2023). We also provide a mobile app version for Apple iOS (iPhone) and Android devices which can provide more specific details about each charger for free.

Will Lima-Ica become the first charging corridor for electric cars?

With the launch of the third electric station, the Lima-Ica route will become the first charging corridor for electric cars nationwide. This will allow users of electric cars that currently circulate nationwide to have autonomy.
