# Portable 12v inverter

## Overview

---

What is a 12V power inverter?

Power inverters with more than 90% conversion efficiency and stable performance. The 12V power inverter has the functions of current protection, short circuit protection, over-voltage protection, reverse charging protection, power protection, and core protection.

What is a 12V 220V power inverter?

This inverter 12V 220V generates 1000-watt continuous and 2000-watt surge power which can be applicable for AC household appliances or electrical devices during work trips, road trips, camping, and so on. This power inverter has full safety protections, built-in fuses, and a temperature-controlled cooling fan, to protect your devices from damage.

Do I need a 12 volt inverter?

An inverter converts 12 volt DC battery power to 120 volt AC power. Most marine electronics and other devices designed purely for onboard use run on battery power, but if you want to use shore-based appliances on board you need 120 volt AC power, and that means you need an inverter.

Can a bougerv inverter work with a 12V battery system?

No. This inverter can only work with a 12V battery system. No. The BougeRV DC 12V to AC 120V inverter can only convert DC power to AC power. Pure sine wave inverters produce a clean, stable power output that is ideal for sensitive electronics, appliances, and equipment.
