Portable Power Bank P7

Overview

What is a portable AC power bank?

Portable AC Power Bank: The AC outlet up to 100W, which can meet the charging and on-load needs of electrical appliances less than 100W. Don't worry about wall plugs limiting your power needs, charge your device anytime, anywhere. It is an ideal necessity for outdoor activities, hurricanes and home emergency power outage.

How many Watts Does a power bank have?

There's a 100W AC port, a 65W PD Type-C port, a 12W USB port, and an 18W USB port for all your charging needs. You can charge your laptop, phone, tablet, camera, etc. Easy to Carry: It is easier to carry on a trip, fishing, or camping than other power banks.

How long does it take to recharge a power bank?

And its fast recharging capabilities from the Type-C port allows the large capacity power bank to be fully recharged in 1.5 hours, saving your time substantially. Huge 27000mAh Capacity: This power bank has a capacity of 27000mAh and four output ports for your emergency needs.
