Portable power bank 3000mah

Overview

How much battery does a 30000 mAh power bank charge?

As previously discussed on our site, the real capacity of a power bank is smaller than its actual capacity. Roughly speaking, you'll get about 75% of the listed capacity. So a 30000mAh power bank will provide an actual charge of around 22500mAh. Listed below are some popular battery capacities which you can find in mobile phones.
