

**BLINK SOLAR**

# **Prague vanadium energy storage power station commissioning time**

## Overview

---

Is the Czech Republic ready for pumped-storage hydroelectric power plants?

Bulk energy storage is currently dominated by hydroelectric dams, both conventional as well as pumped. There are six localities considered for new pumped-storage hydroelectric power plants in the Czech Republic but public acceptance presents a challenge. Front-of-meter installations in the Czech Republic are mired in regulations.

Are there any large-scale electricity storage projects in the Czech Republic?

There are no other larger-scale electricity storage projects currently being developed in the Czech Republic. However, the Czech government provides subsidies to household projects consisting of photovoltaic panels with electricity storage systems.

Is there a future for energy storage in the Czech Republic?

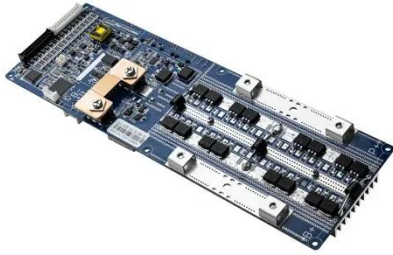

Despite the ongoing discussions, there is no significant development in the area of energy storage. In 2015, the Czech Government adopted the National Action Plan for Smart Grids (“NAPSG”) prepared by the Ministry of Industry and Trade under principles set out in the update of the State Energy Concept, which was also introduced in 2015.

How does the Czech government subsidise photovoltaic panels?

The Czech government subsidises the installation of photovoltaic panels located on domestic properties producing energy for their own consumption and the purchase of co-located energy storage solutions. These subsidies are provided under the “New Green Savings Programme” administered by the State Environmental Fund.

## Prague vanadium energy storage power station commissioning time

---

### EU approves EUR279m state aid for BESS rollout ...

The European Commission has given the go-ahead to a scheme in the Czech Republic that will support 1.5GWh of energy storage ...

---

### The world's largest 100MW all-vanadium liquid flow battery energy

Recently, the world's largest 100MW/400MWh all-vanadium liquid flow battery energy storage power station, with technical support provided by the team of Researcher Li Xianfeng from the ...
