

## BLINK SOLAR

# Price comparison of solar module equipment manufactured in China and Europe

## Overview

---

Will EU-made solar modules be more expensive than Chinese imports?

A report by SolarPower Europe and Fraunhofer ISE finds EU-made solar modules cost €0.103 (\$0.12)/W more than Chinese imports, but targeted policies could close the gap and help reach the EU's 30 GW annual manufacturing target by 2030.

How much does a solar module cost in Europe?

Producing a solar module in Europe with EU-made solar cells costs around €0.103 (\$0.12)/W more than producing the same module in China, according to a new report.

Why is reshoring solar module manufacturing to Europe a problem?

The Reshoring Solar Module Manufacturing to Europe report, by SolarPower Europe and the Fraunhofer Institute for Solar Energy Systems (ISE), says the gap is caused by higher costs for equipment, materials, labour, buildings and facilities.

How has China shaped the global supply and demand of solar PV?

Government policies in China have shaped the global supply, demand and price of solar PV over the last decade. Chinese industrial policies focusing on solar PV as a strategic sector and on growing domestic demand have enabled economies of scale and supported continuous innovation throughout the supply chain.

## Price comparison of solar module equipment manufactured in China

---

### Cost Comparison Wafer-To-Module Manufacturing Cost in Europe ...

Historically significant in photovoltaic (PV) production, Europe lost its edge to Asia due to scaling challenges. Currently, China dominates with low-cost module production at 11-12 cents per ...

---

### EU policies could cut cost gap between European and Chinese solar

A report by SolarPower Europe and Fraunhofer ISE finds EU-made solar modules cost EUR0.103 (\$0.12)/W more than Chinese imports, but targeted policies could close the gap ...

### PV spot price

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

## Manufacturers of devices for renewable energy systems from China ...

In the global race to lead the renewable energy sector, manufacturers from China and the European Union (EU) are in a fierce competition. This article delves into the intricacies of this ...

## Reshoring Solar Manufacturing to Europe

The Reshoring Solar Manufacturing to Europe report, commissioned by SolarPower Europe and conducted by Fraunhofer ISE, quantifies the cost gap and lays out the ...

## Why Chinese Solar Equipment Dominates Europe: Cost, ...

Why Chinese Solar Equipment Dominates Europe: Cost, Quality, and Innovation Europe's ambitious renewable energy transition has created unprecedented demand for solar ...

## European solar module price rise heralds 'new pricing balance'

Image: JinkoSolar Solar module prices in Europe have risen after months of decline, driven by price increases from Chinese manufacturers and a tight supply of popular ...

---

## Executive summary - Solar PV Global Supply Chains

Government policies in China have shaped the global supply, demand and price of solar PV over the last decade. Chinese industrial policies focusing on solar PV as a strategic ...

---

## China's PV Industry Restructuring Begins: Europe Sees a ...

In 2025, China launches a photovoltaic industry restructuring, stabilizing module prices and prompting European developers to adjust their procurement strategies.
