

**BLINK SOLAR**

# **Price of a 100kW Mobile Energy Storage Container for Indian Airports**

## Overview

---

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO<sub>4</sub>) combined with an intelligent 3-level battery management system (BMS);.

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

Are Bess containers made in India?

BESS Containers by APPL Container are proudly Made in India under the Make in India initiative. These modular, pre-engineered containers are ideal for managing and storing electrical energy efficiently. Designed for seamless deployment across solar, wind, and backup energy systems, they ensure grid reliability and emergency readiness.
