Price of solar panel installation in Oman

Overview

As of recent estimates, installing a standard residential solar panel system in Oman can cost between **OMR 800 to OMR 1,500 per installed kilowatt (kW)**. How much does a solar panel system cost?

Buying an average-size solar panel system generally costs around 2.00 USD per watt, therefore, a 3kw system will cost approximately 6,000 USD (including installation) Leasing a solar panel system is \$0-down and has fixed monthly payments. Whether you buy or lease, the solar energy you produce will lower your utility bill.

What is the solar power potential in Oman?

Oman receives a tremendous amount of solar radiation throughout the year, which is among the highest in the world. There is significant scope for harnessing and developing solar energy resources throughout the Sultanate.

Is investing in solar energy profitable in Oman?

Solar energy in Oman is expected to become progressively cheaper in the near future and could offer a good return for investments. The success of solar energy in Oman is merely determined by the government's regulatory policies, fiscal incentives, and public financing.

Who owns the first solar plant in Oman?

Equity stake owned by Nebras Power Amin Renewable Energy Company owns the first utility scale solar plant in Oman, Amin IPP solar plant. Amin IPP has a total capacity of 125 MW. The plant started its commercial operation in Q2 2020.
