Price quote for 100kW solar-powered container in Indian ports

Overview

Market referenced C&I pricing across reputable installers in 2025 generally falls in the ₹35,000–₹40,000/kW band for industrial rooftops, which puts 100 kW around ₹35–₹40 lakh for a standard build. What is a 100kW Solar System in India?

Aside from the main solar components (solar panels and a solar inverter), the system is equipped with a net metering system to record the flow of power between the grid and your solar system. Due to fewer components, an on-grid 100kW solar system cost in India is the lowest among all the three types of solar systems.

Why is a 100kW Solar System a good investment in India?

Due to fewer components, an on-grid 100kW solar system cost in India is the lowest among all the three types of solar systems. During peak sun hours on sunny days, your solar panels are likely to generate a surplus. All the unused solar energy is fed to the grid in return for solar credits.

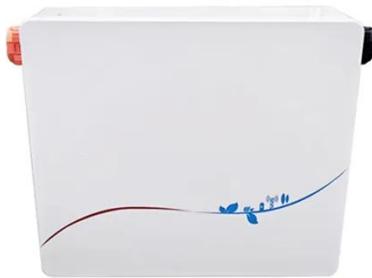

How much does a 100 kilowatt solar power plant cost in India?

The cost of a 100-kilowatt solar power plant in India ranges from Rs. 30 lakhs to Rs. 55 lakhs. To make the most out of your investment in solar energy and enjoy maximum savings and benefits, it's a good idea to pick the best option. Let's take a look at what you can anticipate when you decide to switch to solar power.

What is a 100 kilowatt solar panel system?

On-Grid 100kW Solar Panel System (Works with Net Metering): Off-Grid 100kW Solar Panel System (For Remote Locations): Hybrid 100kW Solar Panel System (Grid-Connected with Batteries): 100 kilowatt Off grid solar system works independently without relying on the grid. It has solar batteries to store excess energy for later use.
