Price quote for a 10kW folding container for Middle Eastern base stations

Overview

How much does a 40ft container cost?

Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025. Between now and the end of the year, container shipping prices will likely remain soft particularly if the current ceasefire between Israel and Palestine enables more shipping traffic to flow through the Suez canal.

What is the freightify container shipping calculator?

The Freightify container shipping calculator is a shipping tool that collects the details of the container, including origin, destination, and other information. The calculator then leverages a collection of data points across multiple sources to consider all relevant factors and new policies that could impact the container shipping rate.

Are global container shipping rates still 46% lower than last year?

Global container shipping rates are still 46% lower than they were in November last year. Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025.

What is a full container load (FCL)?

Full Container Load (FCL): This refers to moves or shipments where you pay for an entire shipping container. This means all your goods are shipped together as one and means no one else's goods are shipping in your container. Shipping companies generally prefer when people pay for FCL as it makes the logistics at both ends much simpler.
