# **Prices of solar tiles and solar panels**

## Overview

---

What is the cost of solar roof tiles?

Solar roof tiles typically cost up to three times as much as solar panels. For a 3KW system, you could be looking at up to £10,000 to £12,000. The Energy Saving Trust estimates that solar roof tiles can earn a homeowner around £7250 in FIT payments over 25 years, so you could have a long wait to recoup your costs.

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Should you buy solar tiles?

If you want to benefit from solar power for your home while preserving the aesthetics of a tiled roof, then yes, you should definitely consider buying solar tiles. Sometimes called 'invisible solar', solar tiles are also an excellent option for solar power upgrades to listed buildings or buildings in conservation areas.

How efficient are solar tiles?

Solar tiles typically have an efficiency rating of around 10%-23%, making them, on average, less efficient than typical solar panels, which are 18%-25% efficient. There are cases where solar tiles are much more efficient than panels.
