# **Romania usp uninterruptible power supply BESS**

## Overview

---

What is Romania's new flexible energy forecast service?

Aurora Energy Research has released its new Romanian Flexible Energy forecast service, predicting billions in investments. Batteries are set to become a central component of Romania's power system, with investments totalling several gigawatts of capacity, amounting to several billion euros over the next decade, according to Aurora Energy Research.

Which Romanian companies are adding Bess to their renewable assets?

Other Romania-based companies, such as Parapet and Waldevar Energy, have told pv magazine that adding BESS to their renewable assets is a top priority. The May edition of pv magazine features an in-depth look at Romania's solar and energy storage markets.

Is Romania's battery storage market ready for takeoff?

Romania's battery storage market is gaining momentum, but it's not yet ready for takeoff. A recent Aurora Energy Research report reveals strong investor interest and promising early projects, but also highlights some regulatory gaps and unclear market access.

What is Romania's energy storage requirement?

Minister of Energy Sebastian Burduja reportedly declared at a conference that Romania's storage requirement is 4,000MWh, and that half would be covered by BESS and half by pumped hydro energy storage (PHES) technology.
