Romanian terrace solar glass

Overview

Did China bid for a solar photovoltaic park in Romania?

The European Commission (the Commission) has opened two in-depth investigations into public procurement bids made by economic operators from the Chinese mainland for a new solar photovoltaic park in Romania. This represents the second and third use of the new tools made available under the Foreign Subsidies Regulation (FSR).

Is a solar photovoltaic park in Romania financed by EU funds?

The two recently initiated FSR in-depth investigations concern a public procurement procedure which was launched for the design, construction and operation of a solar photovoltaic park in Romania which is to have an installed power of 110 megawatts and will be partially financed by EU funds.

Why did Enevo withdraw from a photovoltaic park in Romania?

ENEVO and Shanghai Electric have announced their withdrawal from the public procurement procedure for the construction of a photovoltaic park in Romania. The withdrawal follows the European Commission's opening on 3 April of an in-depth investigation under the Foreign Subsidies Regulation.

What does Societatea Parc photovoltaic Rovinari Est stand for?

The investigations concern a procedure carried out by a Romanian contracting authority (Societatea Parc Fotovoltaic Rovinari EST S.A.) for the design, construction and operation of a photovoltaic park in Romania with a capacity of 454.97 MW, partly financed by the European Union.
