# **Rome s policy on new energy and energy storage**

## Overview

---

Why is a grid-scale battery energy storage system important in Italy?

As the penetration of solar power increases, grid stability has become a critical issue. In response, Italy is prioritizing the development of grid-scale battery energy storage systems (BESS Italy) alongside new industrial and commercial energy storage projects.

Is Italy a leader in industrial energy storage and commercial energy storage?

Accordingly, there is a growing market for industrial energy storage and commercial energy storage projects, positioning Italy as a leader in advanced Italy storage solutions and renewable energy Italy initiatives.

How will a new energy storage and management system help the airport?

The introduction of these new energy storage and management systems will allow the maximum use of renewable energy from the solar PV array, to provide balancing services to the National Grid and to reduce the CO<sub>2</sub> emissions of the airport, in line with its targets towards “Zero Net Carbon”.

What are the innovative features of the energy storage system?

An additional innovative feature relates to the development of equipment able to check the state-of-health of the batteries before their connection to the system. The energy storage system will have a rated capacity of 2.5MW/10MWh. New battery construction will be avoided due to the project.

## Rome s policy on new energy and energy storage

---

### Italy Accelerates Solar Energy and Industrial ...

PNIEC Italy envisions a robust energy storage landscape by 2030, targeting a total installation of 22.5 GW. This portfolio includes 8 ...

### Rome's Fiumicino Airport Unveils Europe's Largest EV Battery Energy

Europe's largest airport solar-battery integration, boosting energy resilience and circular economy leadership. Rome's Fiumicino International Airport has launched Pioneer, ...

### Pioneer project

The energy storage system will have a rated capacity of 2.5MW/10MWh. New battery construction will be avoided due to the project. Overall, the project is forecast to avoid 100% of greenhouse ...

## Italy Accelerates Solar Energy and Industrial Energy Storage ...

PNIEC Italy envisions a robust energy storage landscape by 2030, targeting a total installation of 22.5 GW. This portfolio includes 8 GW of pumped hydro systems (largely ...

## INNOVATION FUND

The PIONEER project involves the design, construction, start-up and operation of a system made up of second-life batteries from the automotive sector for the storage of excess power ...

## Rome Airport Launches EV Battery Energy Storage

Energy storage system based ev batteries launched romes airport - Energy storage system based EV batteries launched Rome's airport, marking a significant step ...

## EU Approves EUR17.7 Billion for Italy's Renewable Energy Storage

The European Commission endorses Italy's EUR17.7 billion initiative for a

centralized electricity storage system, supporting renewable integration and the EU's Green Deal. This ...

## Fiumicino Unveils Europe's Largest EV Battery Storage System

Italy, J: Enel and Aeroporti di Roma (ADR) have officially launched the Pioneer project, a groundbreaking energy storage initiative designed to accelerate decarbonisation ...

## At Rome's airport, an energy storage system using EV ...

The largest energy storage system in Italy, based on batteries from electric vehicles, was inaugurated at Rome's Fiumicino Airport on Tuesday to reduce carbon emissions. The ...

## EU Approves EUR17.7 Billion for Italy's ...

The European Commission endorses Italy's EUR17.7 billion initiative for a

centralized electricity storage system,  
supporting renewable ...

### **Latest on Rome s energy storage policy**

Webinar "Shaping the Future of Energy Storage: Policy Priorities for 2024 - 2029" , Energy Storage ... More than 270 people joined us for the presentation of the Energy Storage ...

### **Italy's Energy Storage Policies: Accelerating the Renewable ...**

Why Italy's Grid Can't Wait for Energy Storage Solutions You know how they say Rome wasn't built in a day? Well, Italy's energy transition won't happen overnight either. With solar capacity ...
