

BLINK SOLAR

Seychelles mobile power station generator brand

Overview

Why is the PUC planning a power transition in Seychelles?

For the next four to five years, the PUC has carefully scheduled this transition in order to guarantee a stable energy supply that can sufficiently sustain the nation's economy. Seychelles currently has a total power generation capacity of 129MW, mostly produced by PUC, through its diesel power plants and solar farms.

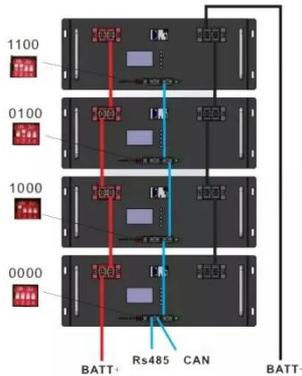

What is hybrid power station?

For green living while ensuring stable off-grid power source, Hybrid Power Station integrates diesel generator set (gas generator set for optional), solar power, battery storage and hybrid solar inverter in one secure unit. It helps customers realize solar self-consumption, rate arbitrage and more importantly, power independence.

What is MPMC hybrid power station?

MPMC Hybrid Power Station is a reliable resilient / prime energy solution mainly developed for independent power. For green living while ensuring stable off-grid power source, Hybrid Power Station integrates diesel generator set (gas generator set for optional), solar power, battery storage and hybrid solar inverter in one secure unit.
