Smart solar inverter in China in Cameroon

Overview

Where do solar panels come from in Cameroon?

In the capital, Yaounde, Wilmosolar prides itself as one of Cameroon's biggest solar engineering firms. The company imports two to four containers of solar products a year from China, said Arnaud Igor Tchokote, Wilmosolar's marketing director. "China is the leader in the production of photovoltaic solar panels.

How many photovoltaic companies are there in Cameroon?

"More than three years ago, there were fewer than 100 companies operating in the photovoltaic sector. Today, there are more than 200, and these 200 companies employ young Cameroonians, who also contribute in their own way to the growth of the economy while filling the energy deficit gap in our country," he said.

Will Cameroon expand its solar capacity by 2030?

According to the Ministry of Water and Energy, Cameroon aims to expand its solar capacity to 250 megawatts by the year 2030. ■ This photo taken on Jshows a solar street light in Buea, Southwest Region, Cameroon. (Photo by Muleng Timngum/Xinhua).

Why did Marie Njie buy a solar battery from njamshi's shop?

Marie Njie, who came to buy a solar battery from Njamshi's shop, said solar products from China have made life much easier. "I pump water and cook using solar power. It's very easy and affordable. I no longer wait for electricity," she said.
