Overview

What incentives do governments give to solar panels?

Financial incentives: To encourage people, businesses, and organizations to install solar panels and use solar energy, governments may give financial incentives such as tax credits, rebates, or subsidies.

What is a two-year solar PV promotion plan?

This program, also known as the Two-Year Solar PV Promotion Plan, allows farmers with agriculturally inefficient farmland (designated by the government) to operate solar farms on their farmland. They may also rent out their farmland to solar power producers (Executive Yuan, 2019a, Executive Yuan, 2019b; Tsai et al., 2019).

What is before and after solar power promotion plan?

Before and After refers to the implementation of the Solar Power Promotion Plan. The treatment and control groups include farmland in eligible and non-eligible solar farm zones. 4.
