Solar Panel Demand

SMART GRID & HOME

Overview

What is the global solar PV panels market size?

The global solar PV panels market size was estimated at USD 170.25 billion in 2023 and is projected to reach USD 287.13 billion by 2030, growing at a compound annual growth rate (CAGR) of 7.7% from 2024 to 2030.

Why is the demand for solar panels increasing?

The growing need to produce more energy with solar as a major renewable source is enhancing the demand for the solar panel market. For instance, the demand for solar panels has increased with the U.S. investments of over USD 5 billion to leverage the domestic solar panel manufacturing capacity by the end of 2024.

What is solar photovoltaic power demand?

Worldwide solar photovoltaic (PV) power demand has been experiencing exponential growth in the last decade. During this period, PV evolved from a niche market of small scale applications to becoming one of the main renewable electricity sources.

Will new solar PV panels increase demand over the forecast period?

The launch of new solar PV panel products in residential applications is expected to increase product demand over the forecast period. In December 2022, Soloes launched next-generation solar panels, ANTARES BI 144, with high radiation capacity and proof against negative effects from sunlight.

Solar Panel Demand

Solar PV Panels Market Size, Share & Trends Report, 2030

Growing demand for renewables-based clean electricity coupled with government policies, tax rebates, and incentives to install solar panels is expected to drive the growth of solar PV

...

Solar Panel Market Size, Share, Analysis & Trends, 2033

The global solar panel market size reached USD 171.83 billion in 2024, growing at a CAGR of 15.18% to reach USD 613.05 billion by 2033.

Solar Market Insight Report Q4 2025

The solar industry would be well positioned to meet more of this new demand if existing constraints were alleviated. This presents considerable upside to our current forecast.

Executive summary - Solar PV Global Supply Chains

Global capacity for manufacturing wafers and cells, which are key solar PV elements, and for assembling them into solar panels (also known as modules), exceeded demand by at ...

ESS

Global Market Outlook for Solar Power 2025-2029

Welcome to the Global Market Outlook for Solar Power 2025-2029. The year 2024 was a true landmark year for solar power. Global solar installations reached nearly 600 GW - ...

Solar Panels Market Size, Trends & Forecast, 2025-2032

The solar panels market is experiencing significant growth due to increasing environmental concerns, government incentives, and declining costs of solar technology. The ...

Policy and supply chain factors slow global PV demand

As the global energy transition accelerates, solar power applications

have drawn significant attention and widespread adoption. InfoLink estimates that global PV market ...

Solar Panel Market Size, Trend, Demand Analysis Till 2034

The global Solar Panel Market size is expected to reach USD 387.2 Billion in 2034 registering a CAGR of 8.9%. Our report provides a comprehensive overview of the industry, ...

Solar PV energy demand globally 2015-2024, Statista

Demand of solar photovoltaic power globally from 2015 to 2019, with forecast until 2024 (in gigawatts) You need a Statista Account for unlimited access Immediate access to 1m+ statistics
