# **Solar container outdoor power produced in Zimbabwe**

## Overview

---

How many solar power projects are there in Zimbabwe?

As of 31 July 2019, the Zimbabwe Energy Regulatory Authority (ZERA) had issued more than 77 power generation licences with 42 being solar power projects. A number of IPPs are already selling electricity to the Zimbabwe Electricity Transmission and Distribution Company (ZETDC) and feeding into the national grid.

How much does a solar IPP cost in Zimbabwe?

In December 2022, Zimbabwe announced a government implementation agreement (GIA) to expedite the commissioning of 27 solar IPP installations. The 1 GW of projects range from 5 MW arrays to 100 MW solar parks and will cost about USD 1 billion in total.

What is Zimbabwe's energy demand?

Zimbabwe's increased economic activity in various sectors, including housing development and construction, has fueled a demand for energy and electricity demand in general. The Government of Zimbabwe estimates the surge in power demand to peak at 2000 MW in 2023, as compared to 1200 MW in 2021.

How much electricity does Zimbabwe generate?

Zimbabwe relies heavily on hydro-powered resources to generate electricity. As per the International Renewable Energy Agency (IRENA), Zimbabwe generated around 7 TWh of electricity in 2021 via hydro-powered resources, accounting for 58.2 % of the total electricity generated in the country.
