BLINK SOLAR

Solar glass sales in London

Overview

Why should you choose a glass supplier in London?

As a dedicated glass supplier in London, our reputation is built on quality, precision, and the ability to meet complex project requirements with advanced glazing technology.

Who is precision glass?

Precision Glass Ltd supply and install semi-transparent solar BIPV panels for architectural glass applications—ideal for heritage properties, conservatories, and carports.

What is solar glass used for?

Solar glass is used to replace conventional construction materials such as glazing or cladding, whilst also generating electricity on site.

Where can solar glazing be used?

Solar glazing can be used in many 'BIPV' (Building Integrated Photovoltaic) applications: barns with transparent solar roofs. Polysolar PS-A opaque series panels (4.6 kWp), Future Business Centre, Cambridge.
