Solar or glass roof

Overview

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

Are in roof solar panels right for You?

In roof solar panels could be just the solution you're looking for if you want renewable energy without compromising the style of your home. They offer a sleek design and the same great benefits of traditional panels but do come with some trade-offs like cost and installation complexity.

What is a Solarglass Roof?

The Solarglass Roof is made of transparent tempered glass that is three times more durable than conventional roof tiles. It has the highest ratings in hail (Class 4), fire (Class A) and windproof (Class F) tests, demonstrating excellent durability.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.
