# Solar power station for home in Canberra

## Overview

---

How many solar panels are installed in Canberra?

Over 11,281 small-scale systems have been installed in Canberra, ACT with a collective capacity of 10,631 kW. Around one in ten households in Canberra, ACT, generates solar power through rooftop installations, contributing to the territory's goal of reaching and maintaining 100% renewable energy.

How much does a 5kw Solar System cost in Canberra?

The cost of a 5kW solar panel system will depend on the quality of panels and inverter installed and the company doing the job. For the 6kW solar system in Canberra ACT (the most popular size Australia-wide), the average cost in Canberra is around \$7,387. The table below shows the average cost of solar PV systems of different sizes in Canberra.

Who is solar power Canberra?

At Solar Power Canberra, we supply and install residential solar panels across Canberra and the surrounding region. We believe solar power is a great way to reduce your energy bills and help the environment, and our team of experienced professionals can help you get set up with the right system for your home.

Why should you choose a solar installer in Canberra?

Solar installers Canberra residents work with should understand the unique needs and requirements imposed by the climate conditions of the ACT. Our team picks only solar panels and systems suited to best suit your needs.
