Solar powered portable outlet in Kuwait

Overview

Do I need a power plug adapter when travelling to Kuwait?

Select the country you are from to see if you need a power plug adapter when travelling to Kuwait. Kuwait uses power outlets and plugs of type G. Take a look at the picture below to see what this plug and power socket looks like: Do the outlets look different in your country?

You'll need a power plug adapter.

What is the standard voltage of a power socket in Kuwait?

All power sockets in Kuwait provide a standard voltage of 240V with a standard frequency of 50Hz. You can use all your equipment in Kuwait if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

Do I need a voltage converter in Kuwait?

This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia. If the standard voltage in your country is in the range of 100V-127V (which is most common in the US, Canada and countries in South America) you might need a voltage converter in Kuwait. The standard frequency in Kuwait is 50Hz.

What is the standard frequency in Kuwait?

The standard frequency in Kuwait is 50Hz. If this frequency differs from the frequency used in your home country, please use caution when plugging in your devices. Check the small print on the device to see if the device can handle the frequency.
