# Solar roof tile subsidies

## Overview

---

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

What is the Solar Rooftop Subsidy Scheme?

The Solar Rooftop Subsidy Scheme is a Government of India initiative to promote the use of solar rooftops in the country. Central government provides subsidy on solar rooftop installations through the Solar Rooftop Yojana to encourage the use of renewable energy.

What are solar tiles?

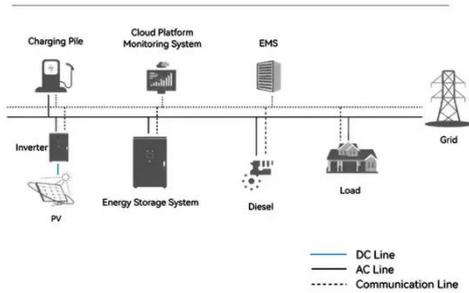

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

When will the rooftop solar subsidy be available?

Central Government announced that it has extended the Rooftop Solar Programme till 31 March, 2026. The subsidy under the programme will be available until the target under the Programme is achieved now.
