# Solar sun room glass room

## Overview

---

What is an example of a solar room?

Examples of solar rooms include greenhouses, solariums, and sun porches. Greenhouses are the most common solar rooms. Conventional greenhouses, however, are not designed to take maximum advantage of the sun's energy.

What is a solar room?

The solar was a room in many English and French medieval manor houses, great houses and castles, mostly on an upper storey, designed as the family's private living and sleeping quarters. Within castles they are often called the "Lords' and Ladies' Chamber" or the "Great Chamber".

What are the most common solar rooms?

Greenhouses are the most common solar rooms. Conventional greenhouses, however, are not designed to take maximum advantage of the sun's energy. The problem is that most are built with a single layer of glass, and so they lose more heat at night than they gain from the sun during the day.

What color is a sun room?

A simple sun room that sticks to the basics - a combination of beige and whites to make a universally attractive room. Walls are painted in beige, with white French windows, while furniture is a combination of fully upholstered pieces with one rattan accent piece, all upholstered in white and beige striped fabric.
