Some small and easy-to-use portable power supplies

Overview

We tested the best portable power stations from Anker, Goal Zero, Bluetti, EcoFlow, and more to find the perfect unit for you to cut the cord with. Support us! What is the best portable power supply?

After carefully researching all of the different options on the market today, we have concluded that the SUAOKI Portable Power Station is by far the best portable power supply out there. It comes with a multitude of charging ports and options, which means that if you have a device that needs to be charged, this unit will have you covered.

How to choose a portable power supply?

Now, there is a lot to take into consideration when you are looking for a portable power supply. The battery type and battery capacity will determine how long your supply will run and how much it can charge. You also have to take into account for what type of wattage the supply is rated, since this will help to determine what you can power with it.

What accessories do you need for a portable power station?

One of the most common accessories is going to be a cord to connect to similar power stations in series, often times doubling your power output. Some portable power stations have a light bar built into the housing, which is useful for seeing at night. Anker's Solix C300 also includes a pop-up camping light.

Do you need a portable power supply when camping?

While they provide plenty of power, they also provide plenty of noise and noxious fumes. Thankfully, there is a better option out there. Whether you want a backup in an emergency or just a way to power your phone when you are camping, you need to make sure you have the best portable power supply you can get your hands on.
