# **Spain Barcelona invests 2 billion yuan in energy storage project**

## Overview

---

How will Spain increase its energy storage capacity?

Spain has launched an ambitious €700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal energy storage, and battery systems.

What is Spain's energy storage program?

For stakeholders in battery storage, thermal storage, and pumped hydro, this program offers not only financial backing but also long-term stability and political support. Spain has launched a €700 million energy storage program to support battery, thermal, and pumped hydro projects, aiming to deploy 2.5–3.5 GW of capacity.

How many energy storage sites are there in Spain?

**Data Protection Policy** The Spanish energy agency has proposed funding for 144 energy storage sites totaling 2.61 GW and 11.14 GWh under a European Regional Development Fund program.

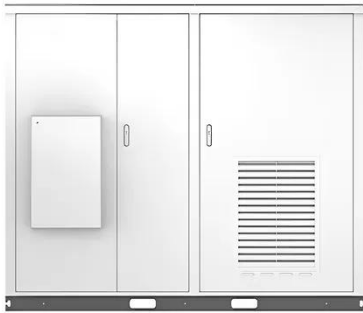

Why should Spain invest in energy storage?

Investing in energy storage helps Spain meet its climate goals. This includes achieving carbon neutrality by 2050. Storing renewable energy instead of wasting it helps the country rely less on fossil fuels. This also cuts down greenhouse gas emissions. Pumped hydro, thermal storage, and battery systems are effective technologies.

### Spain: EUR699m EU scheme to support 2.5-3.5GW of energy storage

The European Commission has approved a EUR699 million state aid scheme in Spain to support the deployment of up to 3.5GW of energy storage.

---

### Spain's EUR700 Million Plan to Boost Energy ...

Europe's energy storage market alone could reach EUR16.5 billion (\$18.7 billion) by 2027. Spain's plan to fund 80 to 120 projects will give it a ...

## Spain provisionally awards EUR839 million to 11 GWh of energy storage

The Spanish energy agency has proposed funding for 144 energy storage sites totaling 2.61 GW and 11.14 GWh under a European Regional Development Fund program.

## CATL started another energy storage system project which is ...

It is known that the energy storage system have "one center and four bases", including R& D centers, large-scale energy storage grid-connected demonstrations, high ...

## Current situation and challenges of energy storage in Spain

Energy storage has become a key piece of the electrical future in Spain, amidst the advance of renewable energies and the progressive withdrawal of nuclear generation. ...

## Spain's Grid Set to Gain 2.2 GW BESS as BW ESS, Ibersun Join ...

...

Global energy storage owner-operator BW ESS has partnered with Spanish developer Ibersun to launch a joint venture that will deliver 2.2 gigawatts (GW) of utility-scale ...

## 2GWh! Gotion High-Tech wins international energy storage ...

In the cooperation with Delta PCS, the two sides are expanding and strengthening cooperation in new energy storage system level adaptation, especially the system level ...

## China's Hygreen Energy Invests \$2.2 Billion in Spanish Green ...

Hygreen Energy has announced plans to invest up to EUR2 billion (\$2.2 billion) in a green hydrogen production project in Spain's Andalusian region. As part of the deal, the ...

## Spain developing 16 GW of battery storage by 2030, ...

The National Energy and Climate Plan

(PNIEC) targets 22.5 GW of total capacity by 2030, combining batteries, pumped hydro, and thermal storage linked to concentrated solar ...
