

BLINK SOLAR

Spanish solar lighting design

Overview

What are solar lamps?

They are a simple, economical, ecological and sustainable way to illuminate your porch, garden or terrace without neglecting the decoration of your home. Do not forget to visit our catalogue at [LightingSpain](#) where you will discover the most innovative designs in solar lamps from the best Spanish lighting brands.

What are the different types of solar garden lights?

There is a great variety of solar garden lights, among which we find solar spotlights, beacons with simple designs, or even functional ceiling lights. They emit more than enough LED light so that our outdoors is always illuminated.

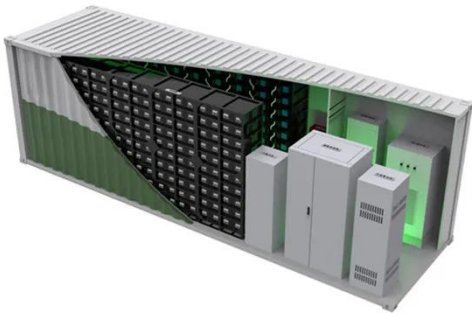

Are outdoor solar lights eco-friendly?

If you are an environment lover, outdoor solar lights are the most ecological option to illuminate your garden, as they do not pollute and allow considerable savings.

How do solar lights work?

They have batteries that are charged by sunlight and last for hours emitting light to our environment. They are a simple, economical, ecological and sustainable way to illuminate your porch, garden or terrace without neglecting the decoration of your home.
