## Overview

---

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Should Brazil invest in energy storage?

Brazil's energy storage sector must attract R47 billion (\$7 billion) in investments by 2030, according to the Brazilian Energy Storage Solutions Association (Absae). Stakeholders are in the process of creating a regulatory framework for energy storage.

What is the panorama of storage in Brazil?

The launch of the Panorama of Storage in Brazil marked a breakthrough in technical discussions and symbolized the beginning of a new era for the Brazilian electricity sector. With its eyes on the regulatory framework, the storage market has the potential to be one of the great drivers of the national energy transition.

Can Brazil be a big battery storage country?

With well-designed policies and regulations, Brazil has significant potential to follow in the footsteps of jurisdictions like California and Chile for large-scale battery storage, Germany for distributed and large-scale storage, and Australia for both pumped hydro and large-scale battery systems.
